

***Devoir* : Simple Math problems**

Write **20** of your own simple math problems using the **numbers 1 through 20** (addition, subtraction, multiplication, and/or division). Write out each problem in **French words**, and also in **regular numerals** :

INCLUDE THESE WORDS :

plus *for* +

moins *for* -

(don't worry about words for **X** and \div and **=** ... just use the symbols)

EX :

trois + *onze* = *quatorze*
3 plus 11 14

Please use a big variety of numbers !
